### **EXPLANATION OF RATES AND CHARGES**

A compatible Digital phone is required. Service and features are not available for purchase or use in all areas. You must be over the age of 18 to purchase service. You will be required to provide us with your name, address and other information about you in order to use the service. For all incoming calls, the length of the call will be measured during the time that you are connected to our system, which is approximately from the time you press 'Send' or other key to answer a call until approximately the time you press "End," or other key to terminate the call. For all outgoing calls, the length of the call will be measured from when you are released by the automated balance notification system until approximately the time you press "End," or other key to terminate the call. Airtime, roaming and long distance for each call is billed in full-minute increments with partial minutes rounded up to the next full minute. While on the AT&T Wireless network, there is no charge for busy or unconnected calls if you end the call within 30 seconds. Availability and reliability of service are subject to radio transmission limitations caused by system capacity, system repairs and modifications, your equipment, terrain, signal strength, weather and other conditions. Call waiting and three-way calling will incur airtime or roaming and applicable international long distance charges. You will incur airtime or roaming plus applicable international long distance charges when accessing voice mail from your wireless phone. Call forwarding will be charged at 40½ per minute for the entire time that our switch handles the call, plus applicable long distance. Directory assistance is charged at \$1.25 per call plus airtime or roaming and applicable long distance. Your airtime rates apply to calls placed and received when in your Home Service Area. Roaming rates apply to calls placed and received when outside this area. Rates are not available when using your phone outside the United States. International wireless long distance charges are subject to change and will be incurred for calls placed from your wireless phone. Different rates apply for calling card or credit card calls. You will not be able to receive calls where a credit card is required. All charges incurred will be deducted automatically from your account. Any amounts loaded into your account are not transferable or refundable. No refunds or other compensation will be given for returned, expired, lost or stolen cards. The maximum account balance at any time is \$1000. Funds deposited to your account expire after 45 days. However, if additional funds are placed into your account before the current account balance expires, the existing balance will be carned over to the new expiration date. If new funds are not added to your account prior to the expiration date, any remaining funds will be forfeited and you may lose your wireless number. Credit card replenishment is available; limitations apply Credit approval and selection of a new calling plan are required to migrate to a qualified standard post-paid calling plan. Upon migration to a post-paid plan any remaining prepaid balance will be lost.

Eligibility requirements, pricing, features and calling areas are subject to change without notice. Service is subject to the Terms and Conditions contained in your User Guide, which is included with your phone or available at point-of-purchase. For customer care, call 611 from your wireless phone or 1 800 888-7600. VoiceInfo: Only available in AT&T Wireless network areas. Accuracy, availability and timeliness of the information may not be accessible at all times. Airtime or roaming rates associated with your calling plan apply. While your requests are processed, advertisements we think will be of interest to you will be played. Your phone number will be shared with TellMe Networks to personalize your service. Any information you voluntarily provide while using this service will be governed by TellMe's policies. See printed materials regarding dialing VoiceInfo for details. AT&T Wireless Text Messaging Service: You can only send messages when using the AT&T Wireless network and then only in select geographic areas. Ability to receive messages in any geographic area is not an indication that you can send messages You will be billed for all messages sent from your device. There is no guarantee of actual delivery or delivery within a specific period of time. If your phone is turned off, your phone's memory is full, or you are outside the service area, the network will store and re-send messages for up to 72 hours. Messages not delivered after 72 hours will be deleted. You cannot send or receive messages while on a call. Maximum message length is up to 160 characters, which includes the e-mail address. Any characters over the maximum will be deleted. If you have per-line call blocking on your account your phone number will still transmit as part of an AT&T Wireless text message. AT&T Wireless Ring Tones: A compatible phone and subscription to an eligible AT&T Wireless calling plan are required. You are only allowed to store and use the ring tone on your phone and you cannot forward, sublicense, share or disseminate the ring tone, in any other way. AT&T Wireless eWallet registration and a credit card may be required for purchase. You can only receive ring tones or graphics in AT&T Wireless network areas Each phone can only store a limited number of ring tones. If you use the ASAP (2727) text messaging only stude a limited in initial straining to host in your phone, standard charges apply to all messages sent. These charges are in addition to the charges associated with the ring tone or graphic that you order and will be deducted from your prepaid account. Ring tones are a minimum of \$0.99 each; premium ring tones are additional and additional data delivery charges may apply. Taxes apply to purchase price. See attwireless.com/ringtones for details.

Because you're a new AT&T Free•2•Go Wireless customer, you probably already know that mLife is all about freedom and convenience. Here, you'll find lots of great information about how to get the most from your new wireless service. Have fun exploring everything you get with Free•2•Go Wireless, and welcome to mLife.

### setting of the first of the setting of the setting of

Now that you've been making calls with your new Free-2-Go Wireless service, here are some ways to keep you talking.

Don't forget, Free-2-Go Wireless airtime expires in 45 days if not used. But don't worry, as long as you use the easy tools we provide to stay on top of your account and refill at least every 45 days, you'll never lose airtime. That's because we'll carry forward any unused portion to the next 45-day period. Keep a spare refill card handy, so you can keep talking and don't get caught without airtime.

You can manage your Free-2-Go Wireless account balance with these easy account management tools:

- visit our eMinutes' site at www.attwireless.com/free2go: Click on the Manage Your Account link and register by entering your Free-2-Go Wireless phone number and PIN. Once you register, you can check your account balance, find out when your airtime will expire and more, all online.
- pre-call announcements: At the beginning of each outgoing call, you'll hear a message notifying you of the number of minutes available in your account.
- text message notifications: If your account balance falls to '5 or less, a short text message notification will appear on your phone's display at the end of every call.
- low-balance tones: If your available airtime falls below three minutes while you're on a call, you'll hear a tone reminding you that your account balance is low.
- dial 611 from your wireless phone or call 1 800 888-7600 to check your balance: 24 hours a day, 7 days a week. You'll need to enter your wireless phone number and four-digit PIN.

These tools give you an easy way to stay on top of your Free\*2\*Go Wireless account balance and avoid the risk of missing important calls. However, you may disable some of these tools if you prefer.

### and the second of the second day.

What's your preference? Online or store? Cash or credit? With Free\*2\*Go Wireless you get the freedom to choose the method for buying airtime that best fits your lifestyle. visit our eMinutes site:

Go to www.attwireless.com/free2go and click on the Buy eMinutes link then you can:

- Buy eMinutes with a valid credit card or debit card.
- Pay online from your checking account. Just fill out an online check with your account, routing and check numbers.
- Sign up for the convenient Auto Refill option, which automatically refills your account every 30 days from your credit card. It's simple, convenient and automatic, so it's easier to manage your monthly expenses.

### other refill options:

- Call 611 from your wireless phone or 1 800 888-7600 to add airtime via our automated system with either a refill card or valid credit card.
- Buy refill cards at an AT&T Wireless Store (www.attwireless.com/storelocator for the store nearest you) or authorized dealer (see right panel for national dealers).

With text messaging, you can send messages to almost anyone, anytime, anywhere from our Digital network. It's a whole new way to stay in touch when you can't talk, for example:

- Check on the kids without an embarrassing call from Mom or Dad.
- At a concert or sporting event, send a text message and save your vocal cords. No need to shout.
- Babysitter has a question when you're at a movie? No problem. She can send a text message!

Sending text messages is easy. All you need is the 10-digit wireless phone number of the person you'd like to send a message to. You can even get AOL Instant Messenger service on your phone, so you can take your online buddies mobile. Best of all, you get unlimited incoming messages free and it's only 10' to send one.

You already have text messaging, so use it right now! Please see the enclosed Thumb Talk 101 insert for additional information, especially the info about receiving text messages, so that you can read your account balance notifications. Or, you can visit us online and see a demo at www.attwireless.com/text.\*

AT&T Wireless | Frequently Asked Questions

A. As an AT&T Free2Go Wireless customer, you will have the following tools to assist you in managing your account balance:

- 1. Pre-Call Announcements: You will hear a message at the beginning of each call notifying you of the number of minutes available to make that call.
- 2. Check account balance and expiration online
- 3. Text Messaging Notifications: A short text message will appear on your phone display at the end of every call if your account balance reaches \$5 or less.
- 4. Low Balance Tones: If your airtime balance falls below 3 minutes while you are on the call, you will hear a tone. This tone is to remind you that your balance is low and that you need to replenish your account to avoid service interruption.

It is important to note that you are not able to call or receive calls if you do not have time left in your account.
